Subject: Strongly Oppose HB 6656

Dear Committee Member:

With all due respect I am growing weary of the sea of assaults on my rights. Proposed bill HB 6656 is yet another hurdle being introduced that will inhibit the rights of the law-abiding and do nothing to stop crime or prevent violence. In this dreadful economy enough people are barely making ends meet yet you propose legislation that with cost gun owners more. Gun ownership is a RIGHT not a privilege. Why don't you propose a requirement on newspaper printers that they purchase insurance in case they are sued for libel. Oh wait, that would violate their constitutional rights.

I apologize for my tone but having lost 2 days of work last week defending my rights this is getting old fast. I feel guilty I can not appear before you this week but I need to work.

I will however never give up in defense of our freedom.

Pass the Castle Doctrine (No self defense insurance needed then)
Enforce current law. (See OLR 0174 which indicates we have enough gun law and it is poorly used)
Treat mental illness
Keep criminals in prison for their full sentence.

ENOUGH!

Thank you
